

# The Strongest Strut Bracket in the Market!

**35% Stronger!**

Unistrut is proud to introduce the highest capacity cantilevered strut bracket in the market. The Unistrut P2580 is designed to hold heavier loads, increase the span between supports, and allow attachment on the top and bottom. This results in significant material and labor cost savings.

## Unistrut® Heavy Duty Bracket

## Features and Benefits

- 35% stronger than competitive products!
- Uses a 3-bolt attachment and a U-shaped base plate for added strength
- Double-sided channel allows attachment on the top and bottom

Part Number	Dimensions "A" (in)	Uniform Design Loads (lbs)
P2580-12	12	2,700
P2580-18	18	1,800
P2580-24	24	1,350
P2580-30	30	1,080
P2580-36	36	900

\*Safety Factor = 2.5 when mounted to 12 ga. Unistrut channel
